

# IMED 1345 - Final Project

Create a fully functional website in Flash CS4 with Actionscript 3. Here are the guidelines and grading scale:

- (10 points) Minimum of 4 Pages – 2.5 points deducted for each page missing.
- (5 points) Naming all Layers – .5 point deducted for each blank layer.
- (10 points) Use AS3 without Errors – 1 points deducted for each error
- (20 points) Use motion tween for animation either in a short animation or through transitions between sections.
- (20 points) Use different elements to create a dynamic website full of content.
  - (10 points) Use dynamic loading text and scroll bars where needed.
  - (10 points) Include images either imported from Photoshop or Illustrator.
- (20 points) Contact form using:
  - (5 points) Input fields
  - (5 points) Text area
  - (5 points) Checkboxes or radio buttons
  - (5 points) A submit button
- (5 points) Add audio in the form of background music or sound bits for you animation.
- (10 points) Design – This is purely based on what I think about your design.

If all parts of the final project are used a total of 100 points can be earned.
