

# IMED 2345 - Final Project

Create a fully functional website in Flash CS4 with Actionscript 3. Here are the guidelines and grading scale:

- (20 points) Minimum of 4 Pages – 5 points deducted for each page missing.
- (10 points) Naming all Layers – 1 point deducted for each blank layer.
- (20 points) Use AS3 without Errors – 2 points deducted for each error
- (40 points) Custom Video Player
  - (10 points) Play/Pause
  - (10 points) FF/RW
  - (10 points) Audio Levels
  - (10 points) Load Multiple Videos
- (40 points) Custom mp3 Player
  - (10 points) Play/Pause
  - (10 points) FF/RW
  - (10 points) Audio Levels
  - (10 points) Use Audio Levels to Manipulate Graphics
- (40 points) XML Gallery – All points or nothing. Use an external XML file to pull in thumbnails and load larger images in a gallery format.
- (10 points) Quiz or Score Keeping Game – Use a global variable to store a score and add/subtract points.
- (20 points) Design – This is purely based on what I think about your design.
